

The New Testament Church Wheel

Diagramming the solution

This wheel is the product of much thought and prayerful analysis regarding what distinguishes true Christianity from Pharisaism. These categories represent some of the essential aspects of the functional Body of Christ, certainly not all. But they correspond more or less item for item to the categories on the Pharisaic Church Wheel and thus create a good tool for comparison.

In the chapter following this wheel, we've attempted to describe the elements of Christianity represented here as the Scriptures define them. It will be a simple matter to examine this list and see which wheel your church aligns most closely with on each issue. Keep in mind, it is not our intent to be judgmental or critical here. Our motive is to expose what has long been hidden in terms that most people can see and hopefully embrace.
